

REMARKS

The Office Action dated June 23, 2005, withdraws the rejections under Section 103(a) in view of Nakamura/Tischler and Koide. The Office Action raises a new objection under 35 U.S.C. 112, that the limitation of a “non-light emitting multi-layered buffer” does not have a basis in the original disclosure. Applicants have provided with this response a Declaration from Chua Soo Jin. The Declaration states that it is common knowledge to those of ordinary skill in the art that a multi-layered buffer as described in the present invention will be a non-light emitting layer. In view of the Declaration, which is provided by an expert in this field, Applicants request that the Section 112 rejection be withdrawn. Although the specification does not state that the multi-layered buffer of the present invention will be non-light-emitting, those for ordinary skill in the art will recognize it as such.

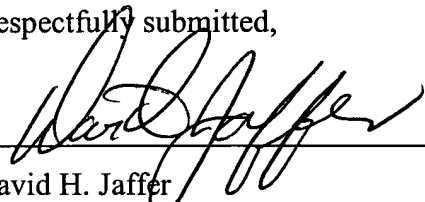

CONCLUSION

Applicants request that the Section 112 objection be removed in view of the Declaration filed herewith. Applicants believe the pending claims are now in condition for allowance.

If any further questions should arise prior to a Notice of Allowance, the Examiner is respectfully invited to contact the attorney at the number set forth below.

Date: October 6, 2005
